A. B. Owens, No. 70 High st., Portsmouth, Va., will furnish subscribers to the Evening Star with their papers regularly every morning after its issue.

JEREMIAH KIDWELL, Esq., is appointed our agent for collecting subscriptions to the Daily Evening Star and Weekly Star, in the State of Virginia. We commend him to the kind attention of our friends.

W. M. MILLS, at Fredericksburg, Va. is prepared to furnish subscribers to the Star with their papers early every morning. Persons wanting the paper will be promptly attended to by leaving their names and addresses with him.

SPIRIT OF THE MORNING PRESS

We have received the first number of the "Organ," V. Ellis, editor, and R. M. Heath, assistant. It is calm and dinified, and declines making war on the Catholic Church. The number in question is principally occupied with a synopsis of the editor's political history, and the republication of a Native Amer-Joan Address from his pen, written in 1841.

The Intelligencer discusses Russian political affairs, and shows us that even in the Osar's deminions, "party" rages as vehement ly as elsewhere in the civilized world.

The Union rejoices over the telegraphic dispatch from Chicago, claiming the election of four Democrats from Illinois to Congress, which, it contends, breaks the power of Knov Nothingism. The same paper comments with severity on the pertinacity with which the New York Tribune got up slanders against many gentlemen during the late canvass in New York.

The Sentinel describes the political and civil difficulties for society involved in the spread of Mormonism and its growing strength

SCIENTIFIC STAIR BUILDER .- Robert Rid dle, of Philadelphia, has shown us a copy of this work. It contains forty plates, with clear and full explanations, and seems to be just such a work as a carpenter wants, as it assists him in the construction of hand rails. For the apprentice it will be the beacon of his trade We refer to Mr. R.'s advertisement in another column as to where he can be seen.

NEW Music.-Mrs. G. Anderson has laid on our table the following pieces of new music: "Dream Life Shottisch;" "Recollection De Rhine Shottisch;" the "Old Hundred Psalm," transcribed for the plane by Wm. V. " allace; "Youth is Life's Time of May;" "Annie, dear, Good Bye;" and "When Shall We Meet?" all composed by William V.

The New York Election. The Governorship of this State is still in-

The Protestant chapel in Rome is in the bouse of Mr. Cass, the American Minister, who alone has the right to a Protestant chapin. The spartment has been handsomely fetted up by Mr. C., and the chaplain is supported by the American and Foreign Chrisian Union. The British Government has no diplomatic relations with the Pope, and consequently the English are not allowed a chapel within the walls. The American chapel will bold about two hundred persons, and is frequently crowded to its utmost capacity.

"DIAMOND COT DIAMOND."-Judging from the recent election returns, the Whigs and Democrats have used Know Nothingism to thrash each other with. Where the Democrats have been strong the Whigs fused with the Know Nothings to beat them, and in the Whig stronghold of Massachusetts the Democracy went Know Nothingism, and have routed their opponents " horse, foot and dragoon." "It's a poor rule that wont work both ways."

YELLOW FEVER .- Accounts from New Orleans mention that the fever had appeared and was raging with much violence at Attakapas and Opelousas, La., and nurses and physicians had been sent for from New Orleans.

A snow storm commenced in Boston on Saturday, and continued until Sunday afternoon, when it turned into rain. It rained hard all day yesterday in Boston.

A large amount of Money, it is said, changed hands in New York on the Mayor's election. They are still betting on the Gov-

ernor's vote. Detroit papers state that the Saut Canal will be completed by the 15th instant. This magnificent work will contain within its limits the largest locks in the world.

WASHINGTON NEWS AND GOSSIP. Mr. Soule.-We clip the following from the New York Evening Post of Saturday :

"We have good reason for believing that Mr. Soule expects to return to the United States within the next two months; that he proposes upon his return to Madrid to demand some official apology from the Spanish Government for the insult which our Government is alleged to have sustained in the Black Warrior case, and presuming that his demand will be refused, he intends to demand his passport

and come home at once. In reference to the humble apology offered to the Spanish government by the owners of the Black Warrior some time since, and which was supposed to relieve our Government from any further concern in the matter, Mr. Soule. it is said, takes the position that the Black Warrior was a United States mail steamer, and that no concessions on the part of her owners could repair the damaged honor of the flag which the steamer carried. Whether this course has been one of the fruits of the Ostend conference, or the result of Mr. Soule's own convictions of duty under his instructions, we are unable to say.

This is a mere elaboration of a dispatch from this city, published in the New York morning papers of Saturday last. We have to say of it, that we are satisfied that up to 9 a. m. yesterday, nothing had reached Washington from Madrid or elsewhere, to justify the impression that any thing had actually oncurred to bring Mr. Soule home in the manner set forth above. The America's Wash ington mails have, however, since been distributed, and we should not be surprised if the despatches said to have come by her embrace facts which make our relations with Spain even more delicate than before. As for the general course which the Post says that Mr. S. designs pursuing with reference to the Black Warrior affair, it strikes us that the editor as well as the telegraphic reporters are making a jumble of the matter, nothing being embraced in this "news," which was not stated in the President's message on the subject, perhaps six months ago.

Indeed, the paragraph we quote, by no means embraces half the points made in that document, all of which, it was long since understood everywhere, Mr. Soule was instructed to make. It will be remembered that the case is exceedingly complicated; that there are other claimants on account of the Black Warrior outrage besides the owners of the ship, and also that there is a grave question of of fended honor with the Government of the United States, that ought to be settled shortly. Under these circumstances, we confess we are prepared soon to hear that our affairs with Spain are approaching a crisis, though as we explain above, we feel certain that nothing definite on the subject had been received in Washington up to 9 a. m., yesterday.

Prepayment of Postage on Letters to California.-It often happens that a letter intended for California is mailed in the Atlantic States with a single three-cent stamp placed thereupon.

The Post Office Department has decided that, inasmuch as this prepayment does not satisfy a single full rate of postage, it can only be regarded as a deduction of three cents from the original unpaid rate, leaving seven cents to be collected at the office of delivery.

When three cents have been paid on a dou ble letter sent from one office in the Atlantic States to another, the amount remaining due at the office of delivery is but five cents, for in this case the sum prepaid is sufficient to satisfy one of the two rates with which such double letter is chargeable.

Commodore Perry and the Vessels of the East India Squadron.—We learn that the Navy Department anticipate the arrival of Commodore Perry in the United States in the course of January next, and that they have advices from the East saying that the steamships Misssissippi and Susquehannah, the sloop Plymouth, and the storeships Supply Southampton and Lexington, all of that squadron, are now on their way home; leaving on the station the steamer Powhatan and the sloops-of-war Macedonian and Vandalia. Captain Joel Abbot will be the senior officer left

Recruiting for the Army.-We understand that five hundred recruits for the United States Army, were obtained during the month of October just passed—the offers of 1,288 being rejected from various causes. GEORGETOWN CORRESPONDENCE.

GEORGETOWN. Nov. 14, 1854. Business along our canal this morning looks quite encouraging. The number of boats, which have arrived during the last day or two, is very considerable, and now that the late rains have, furnished a full supply of water, we doubt not that this activity will not only continue, but increase until the season for boating shall close.

The main building is to be 46 by 41 feet, two stories high, with back building 30 by 17 feet, two stories. The health of our town, at this season of the

year, never was better within our knowledge than it is at the present time. We hear of no sickness of any kind among our citizens. The appearance of the American Organ among us, yesterday afternoon, created con-

siderable stir among some of our people. While the old line Whigs and Demograts, especially the former, who have held sway among us from time immemorial, seemed to look upon it with a jealous eye, the particular friends and sympathisers with the new party seem to regard it as a "God-send," a rod or serpent of Moses, which was ultimately to swallow up everything of the same description that came in its way.
